SUMMARY

Electronics & Communication Engineer with over 2 years of R&D experience focused on embedded systems, automation, and product development, with expertise encompassing end-to-end product development from concept to production, PCB design, and IoT solutions — passionate about innovation and continuously striving to enhance technical skills to drive successful projects.

EXPERIENCE

Embedded Hardware Design Engineer & R&D

Dayro Pvt. Ltd.

10/2024 - 01/2026 Ahmedabad

A company specializing in embedded systems and automation technologies.

- Provided complete R&D support for 3 home automation products from concept to production.
- Led technical operations with cross-functional team of 4 members coordination.
- Managed production operations for 100 units/day ensuring quality control and timely delivery.

R&D Intern

Annex Infotechnologies Pvt. Ltd.

02/2024 - 08/2024 Ahmedabad

A company providing innovative solutions in information technology and engineering.

- Conducted R&D on embedded systems and IoT applications for client projects.
- Optimized hardware-software integration for ATCS (Adaptive Traffic Control System).

EDUCATION

B.E. in Electronics & Communication

VGEC, Ahmedabad- 2024

- CGPA- 7.12

Diploma in Engineering

VPMP Polytechnic, Gandhinagar- 2021

- CGPA- 9.10

SSC

School of Achiever, Gandhinagar- 2018

- 59.66%

CERTIFICATIONS

- Basics of Power Electronic online course from Udemy.
- Certification in Embedded C Programming from Alpha Tech Automation.

STRENGTHS

Core Strengths

Strong problem-solving skills and ability to collaborate effectively in teams.

Adaptability

Excellent adaptability to new environments and technologies.

KEY ACHIEVEMENTS

IoT Automation Prototypes

Developed IoT automation prototypes for Innovation Club competitions.

PROJECTS

Worked on DC-DC converter solutions.

Developed a 5.1 channel Digital audio amplifier.

Built a minimalistic home automation system (ongoing improvements).

SKILLS

PCB Design Schematic Design IoT
Embedded C SPI I2C UART Altium
Testing Debugging Validation
ESP32 Google Workspace

INTERESTS

Technical R&D

Passionate about developing innovative solutions in electronics.

Volunteer Experience

Volunteer work as organizational coordinator during the National Games, Gujarat.
